Oil & Gas News

2022 Print Media Information

Oil & Gas News (OGN) is the only energy industry media platform covering all aspects of the upstream, midstream and downstream sectors including refined products, petrochemicals, chemicals, renewables and power generation. **OGN** provides a unique insight into these key industry sectors covering the GCC and the international energy markets.

For energy industry professionals working in more than 70 countries the **Oil & Gas News** media platform (website, print and daily newsletters) is an important source for industry developments, contract information and new technologies; as well as providing authoritative information, business intelligence, country reports and quality analysis for industry professionals, stakeholders and organisations working in exploration and production, refining, downstream chemicals and related industrialisation. All aspects of the energy supply chain comes under the editorial remit of **OGN**, including equipment, logistics, transportation and distribution; as well as the latest developments in alternative and renewable energy.

After more than three decades of international publishing experience, **OGN's** monthly journal still provides readers through the traditional print format with additional coverage including comprehensive country reports, extensive reviews of major oil companies as well as specialist features on products and services highlighting the latest research and development. The print format is supplemented with a flip-book version.
